

GEMINI SEA FOOD LIMITED

Hygienic Product Healthy Trade

About US

Gemini Background

Established in the year 1982 Gemini has supplied highest quality seafood products to customers worldwide. Since the inception Gemini people have believed in “Hygienic Product Healthy Trade” and made it a part of their core values at work. Quality, Delivery Security, Social Responsibility and Respect to Nature are the corner stones of Gemini’s Business, which has made Gemini the most admired seafood processing companies in Bangladesh

Quality Policy

“Hygienic Product and Healthy Trade” is the core of Gemini’s Business activity. Products are handled and processed with utmost care and in compliance with HACCP system and other internationally recognized standards.

In order to ensure only the best quality products are produced, Gemini limits sourcing of Raw materials only through trusted and long time suppliers.

Gemini also performs regular lab test of raw materials and other ingredients to ensure quality is never compromised.

Business

Gemini’s business is spread over four continents, USA being the number one followed by Europe, Asia and Africa. Gemini’s customer profile includes tier one importers in the USA & Europe and top retailers in Europe.

Gemini is the pioneer in exporting certified organic shrimp from Bangladesh.

About US

Plant

The plant is EU and US FDA approved. The process flow complies with HACCP system and ensures that the product flows from receiving area through to the finished product packing and then to the cold store without any cross-contamination.

The plant is equipped with best in class (Carnitech)

- Spiral IQF freezer
- Cooking and counter cooling system
- Vibrating glazer
- Post IQF hardener
- And plate freezer

The plant also has a UV water treatment plant to supply safe and clean water to the processing line.

Monitoring and Control

Testing laboratory closely and flawlessly monitors the entire processing operations, which eventually ensures absolute compliance with the set processing standard by the production team. The monitoring process is carried out by the QA team regularly.

This is attributed to food safety in every phase of production

Certifications

We regularly update our certificates to ensure food safety and to align with regulatory requirement relevant to the industry and geography. Our EU approval No.: KLN-14 and we have US green ticket and our US FDA registration No.: 12525970880.

FISH

GROUPER (REEF COD) (*Epinephelus chlorostigma*)

Grouper is a lean, white-fleshed fish with a mild flavor. It has a firm texture, and is fairly thick. It is good for grilling, baking, and frying. Very versatile and can be expensive, as its popularity is on the rise. The taste of most groupers is similar, with slight differences in flavor and texture, depending on size, species and location of harvest.
